ROTARY BUSH HAMMER

The specialized tool for roughening smooth stone surfaces. Perfect for creating non-slip strips on stone stairs.

This Rotary Bush hammer is designed for texturing and roughening of smooth stone surfaces. This is especially important for performing operations to create anti-slip surfaces on stone floors and steps. The parallel guide allows the creation of perfectly straight lines. There are different mounting positions for the Bush hammer Roll Tool Holders to create different working widths.

The 1200 W motor is equipped with variable full wave feedback electronic speed control for an even texture. No matter the load, the motor keeps the same even speed.

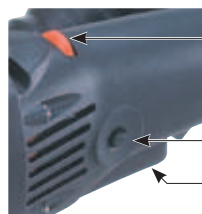

Effective and convenient dust extraction system for a healthy and mess-free job.

Includes a bayonet adaptor end to allow connection to your vacuum cleaner hose.

Comfortable handles help keep vibration away from the hands.

Plastic Carry Case

Speed control thumb wheel
with Feedback speed
stabilization

Lock Button

Trigger Switch

Bayonet Adaptor End

High efficiency 1200W motor with
variable full-wave feedback
electronic speed control

Ergonomic downforce
handle

Effective dust extraction system
with swiveling bayonet mount

Fully adjustable parallel guide may be
mounted in the 9, 12, or 3 o'clock positions
for creating straight textured strips.

Bushhammer rolls (included) can be mounted to
create 51, 70, 96, or 116mm wide textured strips

■ BH92 Replacement Carbide Bushhammer Discs-(Set of 6)

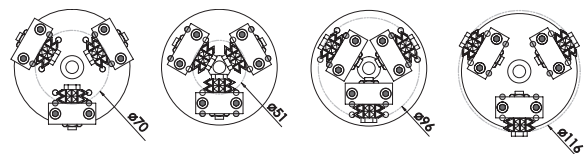

Description

Bushhammer Roll Disc
(Each machine requires 6 pcs)

Part Number

- * Plastic Carry Case
- * Bushhammer Roll Discs (Set of 6)
- * Parallel Guide
- * Hex. Wrench M5
- * Bayonet Adaptor End
(For Connecting To Your Vacuum Cleaner Hose)

LONG-REACH DIAMOND GRINDER

The 125mm Long-Reach Diamond Grinder, It's really an exciting new tool with excellent possibilities in the market. It is extremely light in weight at only 3.8 kg for fatigue-free operation. Although it is light, the motor is very powerful at 1200W with feedback electronic speed stabilization. This allows the same speed to be maintained, no matter the load. It is very easy to control and almost all of the dust and debris are controlled by the vacuum system. This saves time and trouble in cleanup. The operation is the most comfortable possible, whether grinding floors from a standing position or grinding walls or ceilings without scaffolding or ladders. Huge amounts of both time and effort are saved

Net Weight	3.8 kg (8.36 Lbs) (Not including Diamond Cup Disc)

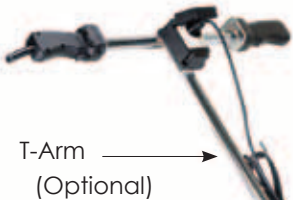

SCOURING MACHINE

- Versatile for removal of soft plaster surfaces; elastic protection on walls and floors; foam crests and adhesive remainders; asphalt and protective coatings for concrete; latex or oil paint on gypsum surfaces; and removal of impurities and contamination on concrete surfaces.
- Superior at grinding off irregularities and projections on plaster flooring and roughing, cleaning and smoothing out irregularities of aged concrete.
- Movable rubber base platform that bends and swivels according to the surface -putting less strain on the user's wrists.
- Ergonomically designed to decrease user fatigue.
- Side handle (able to attach to either side of the machine) improves handling of machine
- Dust free operation- attaches directly to standard vacuum hose.
- All three types of abrasive materials, carbide cutter discs, diamond cup grinding heads and TC grinding heads are easily replaced when worn out.

T-Arm for SM125 Scouring machine

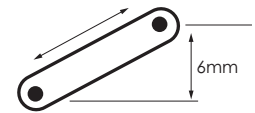

The T-Arm for the SM125 scouring machine allows the operator to work in an upright position for decreased fatigue and increased productivity.

Edge Cut-Out in gearcase

New cover which enshrouds the Edge Cut-Out when the Base is in place.

This will allow the accessory Diamond Grinding Head or Diamond Cup Wheel to reach right up to the edge. (It is not possible for the Scarifier Wheel to reach all the way to the edge).

Model	SM125
Power Input	1200W
Voltage	110-120V~ 50-60Hz, 220-240V~ 50-60Hz
No Load min ⁻¹	2800
Milling Head	125 mm
Milling Depth	1-6mm
Net Weight	5.4 kg (11.9 Lbs)

STANDARD ACCESSORIES

- * Side Handle
- * T-Wrench 13mm
- * Scarifier Wheel with Pyramid-Tip Cutter Discs
- * Wheel Puller
- * Face Spanner Wrench-93mm (for Scarifier Wheels)
- * Vacuum Hose End Adaptor
- * Plastic Carry Case

OPTIONAL ACCESSORIES

- * Overload Protection

■ Rotary Scarifier Wheels

Pyramid-Tip Cutter Discs (Standard)

The SM125 comes complete with a Rotary Scarifier Wheel with a set of Pyramid-Tip Carbide Cutter Discs. Ideal for very hard materials, it aggressively removes material and leaves behind a roughened surface. The adjustable shroud allows controlled depth.

Pyramid-Tip
Cutter Discs-(Set of 15)

Part Number
0299-0108-00000-001

OPTIONAL ACCESSORIES:

Flat-Tip Cutter Discs

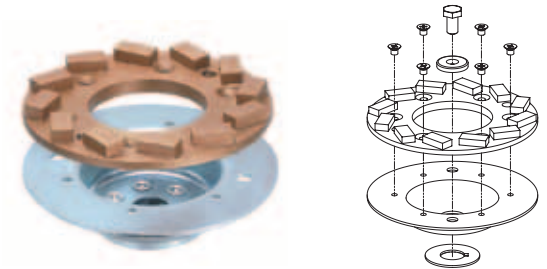

For soft to medium materials
Leaves behind a smoother surface

Flat-Tip
Cutter Discs-(Set of 15)

Part Number
0299-0108-00000-002

■ Diamond Grinding Heads

Diamond Cup Grinding Heads - Specially designed for use with the SM125, Optimized for 2,800 /min. (Mounting kit required.) In a range of grits.

Coarse grit heads grind more aggressively for removing coatings, leveling uneven areas or high spots on concrete surfaces. Progressively finer grit heads for a smoother surface.

Diamond Grinding Head Sets
