

# HVLP TURBINE PAINT SPRAYER

The **T-328 HVLP turbine** uses an industrial grade 3-stage turbine powered by a 1400W motor to meet the performance needs of professional painters. The variable airflow goes to a maximum of 2800 L/min and pressure of 0.41 bar for doing big jobs quickly. Our purpose-built non-bleeder type gun gives excellent atomization for controlled results. We also thought about convenience. The top has a compartment for carrying extra tips and needles. The air filter is easy to access. The carry handle is at the perfect balance point and all hose connections are quick release.

HVLP Gun Set

HVLP Gun Set  
 1.3mm  
 1.8mm  
 2.0mm  
 Air Hose 6M  
 Radiator Kit

Part Number	
1.3mm	305-00172-000-001
1.8mm	305-00172-000-002
2.0mm	305-00172-000-003
Air Hose 6M	0299-0109-00000-002
Radiator Kit	0299-0107-00000-001

Needle Nozzle Set

Part Number	
0.5mm	305-00167-000-001
0.8mm	305-00167-000-002
1.0mm	305-00167-000-003
1.2mm	305-00167-000-004
1.3mm	305-00167-000-005
1.8mm	305-00167-000-006
2.0mm	305-00167-000-007
2.5mm	305-00167-000-008

Air Hose 6M

Radiator Kit

Model	T328
Voltage	110-120V~ 50-60Hz, 220-240V~ 50-60Hz
Power Input	1400W
Turbine	3 Stage
Airflow	2800 l/min
Max. Working Pressure	0.41 bar (6 psi)
Soft Start	With
Turbine Dimensions	325mm x 250mm x 325mm
Net Weight	8.5kg ( 18.7 Lbs)

## STANDARD ACCESSORIES

- \* Air Hose 6M
- \* Gun with 1.3mm (#3) Needle Nozzle Set

## OPTIONAL ACCESSORIES

- \* Needle Nozzle Sets
- \* Radiator Kit
